

Ruiding Feng

133 MEADOWS DR, PISCATAWAY, NJ 08854 | +1-8575408128 | rf711@scarletmail.rutgers.edu

EDUCATION BACKGROUND

Rutgers University

New Brunswick, NJ

- Expected degree: MS in Computer Science | 01/2026 - Today

SCAD

Savannah, GA

- Software: Houdini, Nuke, UE5, Maya, Zbrush | 09/2023 - 03/2025
- Skill: VEX scripting, FX simulation, Compositing, Lighting, Modeling etc.

Boston University (BA)

Boston, MA

- Degree: BA in Mathematics & Computer Science | 08/2021 - 08/2023
- Main Courses: Computer Systems, Software Engineering, Applied Statistics, Multivariate Calculus, Probability, Discrete Mathematics, Stochastic Process

Green River College

Auburn, WA

- Major: Computer Science | 08/2017 - 05/2021
- Main Courses: Precalculus I & II, Intro to Programming, Topics in Linear Algebra, Calculus I-IV, Computer Science I Java & C++, Statistics, Data Structures, Differential Equations

RESEARCH EXPERIENCE

Affordance2Action: Task-Conditioned Scene-Level Affordance Grounding for Real-Time Manipulation

Under review by CoRL 2026

Feb 2026 - Present

- Reviewed and reproduced related affordance grounding and robot manipulation papers to compare annotation pipelines, model assumptions, and evaluation protocols.
- Helped build the A2A-Bench annotation pipeline by filtering object-centric manipulation scenes, cleaning noisy samples, and verifying task-relevant affordance masks for real-time grounding experiments.
- Identified problematic labeled samples in later data-review rounds, flagging noisy masks, mismatched task instructions, and ambiguous functional regions for correction.

Patent Analysis Using Natural Language Tools

12/2021 - 01/2022

Research Assistant, advised by Zhaoqi Cheng, Ph.D., Boston University

- Collected research papers and reviewed state-of-the-art models in the field.
- Collected, compiled, and tokenized patent data from the USPTO website using database tools such as SQL and natural language tools such as Python/NLTK.
- Ran topic modeling on the patent corpus using TF-IDF and LDA to extract important textual features from patent documents.
- Designed and trained a Naive Bayes model using machine learning tools such as scikit-learn, attaining 85% accuracy in predicting firm performance measures.

Using Machine Learning Technology to Predict Stock Trends

06/2020 - 09/2020

Independent work, advised by Hayward Xie, Ph.D., Iowa State University

- Studied mathematical models and broader applications of deep learning and machine learning.
- Built models to predict stock performance by detecting word-frequency patterns in financial news using TF-IDF and Bayesian analysis.
- Reached an accuracy rate of 73% in evaluation tests.

PROFESSIONAL EXPERIENCE

iFLYTEK

On Site

Assistant SDE Intern

06/2026 - Present

- Built an LLM-wiki knowledge base system for a harness-based agent workflow, integrating retrieval skills to support context-aware knowledge access.

Sunyard Hangzhou

On Site

Intern

06/2025 - 12/2025

- Responsible for backend and algorithm development of AI agent platform, a competitor to ByteDance's Coze.
- Contributed to LLM algorithm and model engineering by integrating LLaMA-Factory for LoRA fine-tuning, building data generalization pipelines with Easy Dataset, DataFlow, and GraphGen, and deploying DeepSeek and Qwen3 models using vLLM, SGLang, and TensorRT-LLM.
- Supported backend platform functionality including knowledge base analytics, token consumption monitoring, conversation tracking, and intelligent agent workflow migration.

NIO Shanghai

On Site

Intern

02/2023 - 05/2023

- Responsible for discovering new interface panel elements for FireFly of sub-brand of NIO.
- Collaborated with technical side to bridge the gap between interaction design and backend development in Unity.

Sangfor Technologies

Remote

Intern

08/2020 - 09/2020

- Responsible for discovering new sales opportunities by sorting through transaction records of customers from 2010 to 2019.
- Divided customers into different segments and finished their portraits by analyzing transaction records, amount, and service needed.

EXTRACURRICULAR ACTIVITY AND LEADERSHIP

Co-Leader of Chinese Students and Scholars Association

01/2019 - 06/2019

Auburn, WA

- Organized and led cultural exchange activities at Auburn High School.
- Engaged in Chinese culture publicity activities at Green River College.
- Assisted in planning and organizing e-sports and singing competitions for international students.

Co-organizer of International Students Events

01/2019 - 01/2020

Auburn, WA

- Acted as chair leader to lead discussions and liven up the atmosphere on theme nights every two weeks.
- Attended ISE meetings and advised on activity planning and problem handling.
- Provided event logistics support, driving for the food purchaser and buying food occasionally.

Active Member of Game Development Club

01/2019 - 06/2020

Auburn, WA

- Attended weekly meetings, looked back at previous projects, and brainstormed new game ideas.
- Learned to use game development tools and created my own 2D game.
- Worked with another club member on school bus reserving and tracking software to solve traffic inconvenience.

HONOR

Phi Theta Kappa Honor Society

06/2020

SKILLS AND INTERESTS

- Language skills: Chinese (Native), English (Advanced), Japanese (Elementary)
- Computer skills: Java (1 year), C/C++ (1 year), Python (5 years), VEX (2 years)
- Interests: Skating player, especially figure skating
